

MB Docket No. 04-233

I was shocked and appalled when I found out that the FCC was proposing a new broadcast service LPFM. If this is allowed to proceed a number of wholesome programs will be removed from the airwaves. In this instance, I am referring particularly to K-Love, heard in San Diego on 100.1 FM. It is one of the few "family safe" programs on the air and it would be a tragedy to lose such a "community building" station. K-Love provides services that no other local station provide - encouragement; strong family values; resources for self-help; and the promoting of community involvement.

Please DO NOT allow K-Love to be taken off the air.

Thank you
Cindy Ferguson
